

WH8560J3

QuickSmart™ 8.5kg

QuickSmart™ Front Loader utilises our SmartDrive™ technology to eliminate the belt drive, delivering the ultimate clothes care. Using our direct drive motor this washer is whisper quiet. A revolutionary Vortex wash gets clothes cleaner faster. This washer fills with cold water and gradually heats it to the temperature you select without using your hot water supply.

Depth	645mm
Height	850mm
Width	600mm

Features & Benefits

What is SmartDrive™?

By combining smart electronics and a direct drive motor that connects directly to the wash drum, the need for a belt and pulleys is removed and the motor constantly provides feedback to a computer controlling the tumble and spin action.

Whisper Quiet

Fisher & Paykel's SmartDrive™ technology uses a direct drive motor that removes the need for belts, pulleys and the traditional block of concrete to hold the machine down in spin cycle. Without these old components, SmartDrive™ washers are more reliable, produce less vibration and are whisper quiet.

SmartTouch™ Control Dial

Fisher & Paykel's SmartTouch™ Control Dial is your interface to SmartDrive™ technology. It distils 21 years of SmartDrive™ development into a user-friendly interface, to deliver an expert wash every time through nine and 13 pre-programmed wash cycles.

Quick Vortex Wash Cycles

Fisher & Paykel has developed the Vortex Wash which speeds up the cleaning process so most cycles take less than an hour to complete. This is like an explosion in the midst of the tumble action which thrusts the sudsy water from the bottom of the drum into and through the clothes. By getting the cleaning agents and heat into the fibres of the clothes quicker, the clothes get clean quicker.

Water and Energy Efficiency

Fisher & Paykel SmartDrive™ Front Loaders deliver a 4.5 star Water Rating as well as a 4 Star Energy Rating, making them one of the most efficient front loaders on the market.

Specifications

Consumption

Annual Energy Consumption	320 kWh/year
Energy Star rating	4
Water rating	4.5

Main features

Capacity (dry load)	8.5 kg
Noise (spin)	55 dBA
Noise (wash)	49 dBA

Performance
